

# Kathy Wise Designs Intarsia Patterns

## Kathy Wise's Intarsia Art

I have been sculpting dogs and other animals professionally for over 45 years. I have written four Intarsia books and over 67 articles for Scroll Saw Woodworking & Crafts magazine featuring my unique pattern designs. I first began designing intarsia patterns for my father-in-law over 25 years ago. When one of his customers would ask for a hard to find dog breed or a special custom intarsia of their pet, I would create the pattern. The customers loved their unique intarsia pieces and I realized there was a demand for uncommon patterns. I offer a wide variety of over 1000 patterns of dog breeds, cats, horses, landscapes and wildlife.

## About my Patterns

I have designed many custom patterns from photos for different intarsia artists, with subjects ranging from dogs to alpacas. All of these patterns were not tested prior to sending to my customers. Every client was pleased with the pattern & finished piece. Many of these are included in my catalog. Some of the patterns have not yet been produced in wood. This approach to creating intarsia patterns enables me to supply a wide selection of unique and seldom found patterns to intarsia artists. Most of my patterns are designed for intermediate to advanced woodworkers who have some experience in working with intarsia. I do not include a color photo of the finished piece. I use a gray scale thumbnail of the pattern to indicate the lights and darks in the pattern. Most intarsia artists like to pick out the type and color of their wood according to personal preference and what is available locally. I believe a pattern should be a starting point for woodworkers... Each intarsia piece you produce is a unique and creative vision created by you, the Intarsia artist.
